Social Media & Skill Development

Beyond Doom-Scrolling: Productive Uses of Social Platforms

Re-evaluating Social Media

Social media is often villainized, but our data shows 64% of students use it for learning. Instagram (educational accounts), TikTok (tutorials), Discord (study groups), Reddit (communities) are all productive tools.

Top Learning Hashtags

#LearnOnTikTok (4.2B views), #StudyTok (3.1B), #CodeNewbie (890M), #DesignInspiration (2.3B), #MathTok (1.1B), #ScienceTok (1.8B). These reach millions of students globally.

Positive Outcomes

Students using social media for learning report: better connection to peers (52%), exposure to new ideas (78%), quick access to experts (34%), motivation through relatable creators (61%).
