Data Science for Everyone

How AI tools democratize analytics

Analysis

AI tools are making data science accessible. 19% of students use AI for data analysis. Skills: prompt engineering, data visualization, statistical reasoning. 8% have published data-driven reports. AI-assisted analysis is the new literacy.

Key Statistics

78% of students use YouTube for self-directed learning. Average screen time: 4.7 hours/day, of which 67% is educational. 64% of students use AI tools, with 89% reporting improved learning. 71% have turned a screen hobby into a measurable skill. Top learning platforms: YouTube, Khan Academy, Discord, Coursera.

Methodology

Data collected via 8-step anonymous survey, n=150+ students, ages 14-19, across 12 Indian cities. AI analysis using Google Gemini 2.0 Flash. Statistical analysis with Python pandas/scipy. Confidence interval: 95%.

Implications

These findings have significant implications for educators, parents, and policymakers. AI tools are making data science accessible. We recommend further research and pilot programs.
