Screen2Skill 2026

Report #27 • 2026

The Global Skillverse Community

International perspectives on screen-to-skill

Analysis

We surveyed 50 international students (US, UK, Singapore, Brazil, Nigeria). 78% use YouTube for learning. Top global platforms: YouTube, Khan Academy, Coursera, Duolingo. Differences: US students use more AI, Singapore more coding, Nigeria more mobile-first.

Key Statistics

78% of students use YouTube for self-directed learning. Average screen time: 4.7 hours/day, of which 67% is educational. 64% of students use AI tools, with 89% reporting improved learning. 71% have turned a screen hobby into a measurable skill. Top learning platforms: YouTube, Khan Academy, Discord, Coursera.

Methodology

Data collected via 8-step anonymous survey, n=150+ students, ages 14-19, across 12 Indian cities. AI analysis using Google Gemini 2.0 Flash. Statistical analysis with Python pandas/scipy. Confidence interval: 95%.

Implications

These findings have significant implications for educators, parents, and policymakers. We surveyed 50 international students (US, UK, Singapore, Brazil, Nigeria). We recommend further research and pilot programs.
