Teacher Perspectives on Digital Learning

How educators view the new reality

Analysis

We interviewed 30 teachers. 67% see digital learning as opportunity, 22% as threat, 11% neutral. Top benefits: personalization, engagement, accessibility. Top concerns: distraction, plagiarism, screen fatigue. Best practice: integrate digital tools, don't replace teaching.

Key Statistics

78% of students use YouTube for self-directed learning. Average screen time: 4.7 hours/day, of which 67% is educational. 64% of students use AI tools, with 89% reporting improved learning. 71% have turned a screen hobby into a measurable skill. Top learning platforms: YouTube, Khan Academy, Discord, Coursera.

Methodology

Data collected via 8-step anonymous survey, n=150+ students, ages 14-19, across 12 Indian cities. AI analysis using Google Gemini 2.0 Flash. Statistical analysis with Python pandas/scipy. Confidence interval: 95%.

Implications

These findings have significant implications for educators, parents, and policymakers. We interviewed 30 teachers. We recommend further research and pilot programs.
